virus- and  
bacteria-free  
water

**ELECTROLYTE  
ENHANCED  
WATER**

Improves water  
with trace elements  
of essential  
minerals and  
electrolytes

FLOWATER REFILL STATIONS ARE METICULOUSLY DESIGNED  
FOR YOUR HEALTH, SAFETY, AND TASTE.

In the beginning, before COVID, this was a water project. Then COVID happened, and we became a lot more empathetic to the socio-economic issues in our community. This is now a heart project.

**You can't put a price tag on providing the absolutely best quality water for our students, staff, and community. This may be the best water they ever have access to.**

The fact that we can provide the best means a lot. Our students will feel so loved when they come back to campus."

**COLTON UNIFIED SCHOOL DISTRICT**

**FloWater is more than a hands-free water bottle filling device — it is a luxury at an affordable price during a tough year."**

**AVE MARIA CATHOLIC SCHOOL**
