

HANDS-FREE OPERATION

The touchless, sensor-activated bottle filler is designed for easy use. There's no need to hold the bottle; just place and fill.

MINIMAL SPLASHING

Bottle filler dispenses a clean, laminar flow of water so there is minimal splashing when filling reusable bottles and cups.

SEE BOTTLES SAVED

Exclusive Green Ticker™ informs user of the number of 20 oz. plastic water bottles saved from waste by using refillable bottles at the bottle filling station.

ANTIMICROBIAL PROTECTION

Key plastic components on the unit have a special silver ion antimicrobial protection that inhibits the growth of mold and mildew.

REAL DRAIN

The basin includes a real drain system to help with drainage and eliminate standing water.

ELKAY ENHANCED EZH2O 8-GPH BOTTLE FILLING STATION & SINGLE COOLER

ADA, Filtered, Light Gray

We offer the perfect drinking solution for medical facilities, schools and universities, office buildings, airports, shopping malls, and other high-traffic locations, for both indoor and outdoor installations. We have a wide variety of drinking fountains, water coolers, bottle filling stations and chillers. Select from models that meet adult or child ADA standards, WaterSentry® Plus filter systems, or vandal-resistant models designed for tamper-resistance and high-traffic areas.
